

THE BRAINERD DAILY DISPATCH

Volume 20, Number 256

BRAINERD, MINNESOTA, FRIDAY, APRIL 1, 1921

Price Three Cents

7 LIVES PROBABLY LOST IN MARINE DISASTER

STEAMSHIP SUNK IN PUGET SOUND BY COLLISION

PASSENGER STEAMER GOVERNOR
RUN DOWN BY STEAMER
WEST HARTLAND

THREE MEMBERS OF CREW AND
SEVEN PASSENGERS ARE
REPORTED MISSING

(By United Press)

Seattle, Apr. 1—Seven lives probably were lost when the freighter West Hartland and the steamship Governor crashed early today.

The Governor was sunk in the Strait of Juan de Fuca off Port Townsend.

The West Hartland, badly damaged, was expected to limp into Seattle today with the survivors of the Governor, estimated at 291.

According to wireless reports here three members of the crew and four passengers are missing.

Several of the crew of the Governor were injured by escaping steam.

The Governor went down one hour and ten minutes after it had been rammed by the West Hartland.

Seattle, April 1—A wireless message from Port Townsend today said that six persons were missing from the steamship Governor, sunk by the United States shipping board vessel West Hartland, about one mile off Port Townsend shortly after midnight last night.

The missing were said to be four passengers and three members of the crew.

The West Hartland, which was also damaged by the collision, searched the vicinity for four hours and then started for Seattle where it is expected she will dock sometime between 9 and 10 a. m. Launches are continuing the search.

PLANS FOR R. R. RELIEF HAVE BEEN AGREED UPON

BY PRESIDENT HARDING AND
CABINET, IT WAS LEARNED
AFTER MEETING

(United Press)

Washington, April 1—Plans for solving the railroad problem have been agreed upon by President Harding and his cabinet, it was learned today following the cabinet meeting.

Cabinet members expressed themselves as confident that the discussion would bring relief. Details were withheld temporarily but an announcement is expected soon from President Harding today or in the near future.

The railroad situation is understood to have been discussed from all angles by the cabinet. The question of rates and their blame for business depression and disadvantage of high rates and their infliction upon farmers and possibility of increasing crops were discussed.

Lauck, Labor Economist, Pleads For Natl. Agreement

(By United Press)

Chicago, April 1—Industrial relations of railroads prior to 1917 illustrates the necessity of a national agreement between railroads and employees, W. J. Lauck, labor economist, testified before the United States railroad labor board today.

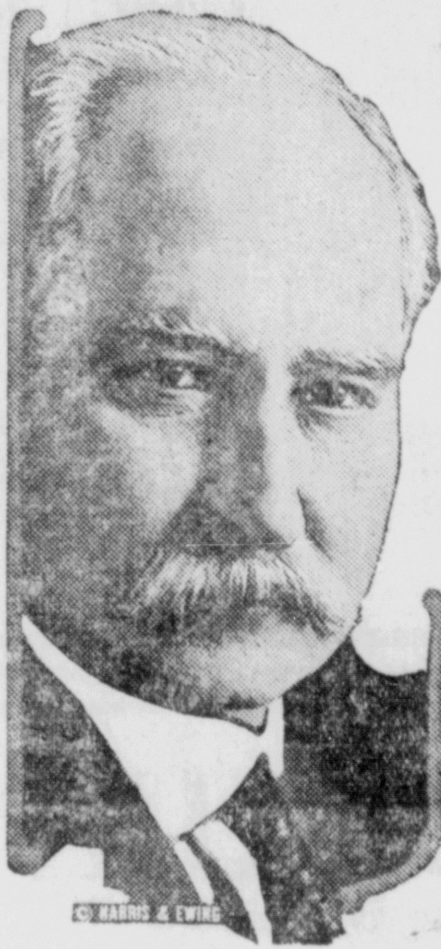

The chief attack was delivered against the Pennsylvania railroad.

Business Section of Scranton, Pa., Is Caving In

(United Press)

Scranton, Pa., April 1—The business section of Scranton was caving in today as the surface was settling resulting from the cave-in of mines underneath the city. Twelve large business buildings have been damaged.

ALBERT B. FALL

New portrait of Albert Bacon Fall of New Mexico, secretary of the interior in Mr. Harding's cabinet.

JUDGE GRANTS MRS. STILLMAN ALIMONY ASKED

SAYS CASE WILL RESULT IN
DEADLOCK IF ALL CHARGES
ARE PROVED

(By United Press)

Poughkeepsie, N. Y., April 1—The Stillman divorce suit will result in a deadlock if both sides prove the charges they have brought against each other, Justice Morschauer declared here today.

The statement was made in a ruling by which the court increased Mrs. Fie Potter Stillman's temporary alimony from \$5,000 to \$7,500 a month and granted her \$35,000 for counsel fees and \$12,500 for expenses in obtaining witnesses.

Morschauer in these words pointed out that neither side can obtain a divorce if joint accusations are upheld:

"If these charges are established, the plaintiff and defendant will find themselves in the same position as before the commencement of action, except they will have had their day in court—or perhaps several days."

The principal charges made by James A. Stillman, president of the National City bank, is that two-year-old Guy Stillman, youngest of his wife's four children, is the son of Fred Beauvais, French-Canadian guide. Mrs. Stillman bases her counter charges on allegations that Stillman is father of Jay Leeds, two-year-old son of Mrs. Florence Leeds, famous chorus girl.

Stillman Will Appeal

New York, April 1—Attorneys for James A. Stillman will appeal from the alimony ruling of Justice Morschauer rendered today, it was announced after a three hour study of Judge's ruling.

It claims will be that the alimony and counsel fees granted Mrs. Stillman are excessive and letters which Morschauer held to be inadmissible had bearing on the question of alimony.

AUTO BANDITS HOLD UP BANK

MAKE GETAWAY WITH THE LOOT
ESTIMATED AT NEARLY
\$100,000

(United Press)

Chicago, April 1—Four automobile bandits held up the Summit State bank at Summit, Ill., near here, early today and escaped in an automobile with loot estimated at between \$80,000 and \$100,000.

ENTENTE ALLIES NOT TO RECOGNIZE HAPSBURG STATE

RESTORATION OF CHARLES TO BE
FOLLOWED BY "DISASTROUS
CONSEQUENCES"

HUNGARIAN PARLIAMENT MET
TODAY TO DECIDE QUESTION
OF CARL'S RESTORATION

(By United Press)

Paris, April 1—The allies today warned Hungary that "disastrous consequences" will result if former Emperor Carl is restored to the throne.

The warning was dispatched by the council of allied ambassadors. The note declared the allies will not tolerate a Hapsburg restoration nor recognize any such government.

Hungarian Parliament Met Today
Budapest, April 1—The Hungarian parliament met today to decide between monarchy and democracy. Monarchists prepared to press the claims of former Emperor Carl.

A monarchist alternative was to take over a regency for Carl's eldest son, Prince Otto.

Carl Agrees to Leave Hungary

Paris, April 1—Former Emperor Carl has agreed to leave Hungary, according to the newspaper Bersoir.

Carl's departure is only a matter of hours the paper said today. It declared that Carl and representatives of the government reached an agreement at Steinamanger.

Monarchist Spirit Flares in Hungary

Paris, April 1—The monarchist spirit in Hungary was flaming. The progress of royal troops through western Hungary brought great additions to Carl's forces. The advance of Lebar's army toward Budapest was the signal for great rejoicing.

Small garrisons along the way flocked to the former emperor's colors. Great activities resulted here today in allied and "little entente" circles. Conferences followed one another in constant rush.

Hungarian Regent Abdicates,

According to Later Report

Paris, April 1—Admiral Horthy, regent of Hungary, has abdicated in favor of former Emperor Carl, according to Budapest dispatches today.

Carl was reported advancing on Budapest with monarchist troops under General Lehar.

Count Julius Andrássy, former premier, was said to have been named president of the council of ministers to conduct the government until Carl formally resumes his throne.

Lehar's army was expected to reach Budapest tonight. The garrison was reported to be ready to go out without resistance.

NOTE—The above dispatch was received after denial had been made of the first reports that Horthy had resigned.

"Little Entente" Will Oust Carl

Paris, April 1—France has informally issued the next order of the "little entente" that she will supply necessary military movements against Hungary if former Emperor Carl is not renounced, reports here today said.

At the Czecho-Slovak legation it was said three ultimatums will be sent the Hungarian government if Carl is not dismissed.

Carl Ridicules "Little Entente"

Vienna, April 1—Former Emperor Carl ridicules war threats of the "little entente" according to the National Zeitung today.

The newspaper quoted him as saying in an address to the monarchist leaders at Steinamanger, "The little entente threats of war will not materialize. The allies in event of my accession will make only platonic protest. Their attitude over the return of King Constantine to Athens confirms my words."

Many Needles Used Daily.

The world uses up between 3,000,000 and 4,000,000 needles daily, or about 1,400,000,000 in the course of a year.

BODIES OF 46 SOLDIERS ARRIVE IN ST. PAUL

(United Press)

St. Paul, April 1—Forty-six bodies of soldiers who were killed and died in Europe, arrived here today. Each box was draped with a large American flag. The bodies are destined to towns all over Minnesota, Wisconsin and the Dakotas.

FIVE FARM BILLS ARE PASSED BY THE LEGISLATURE

ONE IS TO PREVENT GRAIN SPECULATION, ANOTHER ASKS EM-BARGO GRAIN IMPORTATION

(United Press)

St. Paul, April 1—The house of the legislature today passed five of the farm marketing bills.

The first was requested of congress to prevent speculation in farm products. Another would raise the bond of grain commission merchants from \$10,000 to \$25,000.

Revised prices for storage of grain in terminal warehouses and negotiability of warehouse receipts are provided in two other measures.

The fifth requests the president by embargo, and congress by emergency tariff legislation, to prohibit importation of agricultural products into the United States which are injurious to the agricultural interests of this country.

The house highway committee introduced two bills limiting the size of the motor vehicle and an amended traffic law.

An attempt to make eight bank bills a special order for next Wednesday failed. Ten educational bills were made special order for Wednesday morning.

A night session will be held tonight for passage of local bills to which there is no objection.

The soldier bonus bill will be made a special order for Thursday morning.

Final Action on Occupational Tax
St. Paul, April 1—Final committee action on the six per cent occupational tax measure now before the senate was expected late today. The house passed the bill aimed at the iron ore industry.

The senate tax committee has given the bill several hearings and expects to report it out early next week.

The bill is meeting strong opposition as a substitute for tonnage tax legislation.

The senate halted a proposed constitutional amendment for an eight hour day law. A motion to advance the bill on the calendar for a week under suspension of rules, was voted down 38 to 19.

A recess of five minutes was taken shortly after the senate met today out of respect of Rep. H. H. Emmons of Freeborn county, who died Thursday. A special committee was appointed to attend his funeral Sunday.

BRITAIN INVOKES EMERGENCY ACT TO AVERT TIE-UP

PROCLAMATION OF ACT SURPRISES WORKERS—NEVER USED BEFORE

(United Press)

London, April 1—Great Britain unlimbered heavy artillery in the shape of an emergency act to fight threatened industrial tie-ups.

Coal miners went on a strike and their mines are left unprotected and they may become flooded.

Transportation and railroad workers were planning a meeting for next week with every prospect of joining the miners in their general strike against wage cuts.

The proclamation of an emergency act caught the strikers by surprise. Under an act which was passed last fall the government can mobilize their national resources. The law has never been invoked before.

FRAME NATIONAL FARM POLICY FOR WHOLE COUNTRY

REPRESENTATIVES OF FARM ORGANIZATIONS AND STOCK PRODUCERS MEET

FOR THAT PURPOSE TO PRESENT MATTER TO CONGRESS AND PRESIDENT HARDING

(United Press)

Washington, April 1—Representatives of all organized farm and livestock producers will meet here the first week of the new congress to frame a national farm policy and present it simultaneously to President Harding and congress.

Their aim is to form the most compact organization of agricultural interests which has ever operated in this country. They will ask:

Relief from the present high freight rates;

Amendment of the Esch-Cummins railroad law in the interests of the public and consumer;

Packer control legislation;

A curbing on grain gambling;

Emergency tariff and tax revision;

National aid to the co-operative marketing plans.

The railroad question next to the emergency tariff is the most important from the farmer and livestock men's point of view, Senator Capper of Kansas, and other farm state legislators said today.

"The farmers of the west are greatly concerned over the present ruinous freight rates," said Capper. "They want something done to reduce them. They see rates go up and the railroads continue to assert they are unable to put themselves on a better basis. The present rates mean that small shippers cannot send their produce to market and make any money."

There is much sentiment for repeal of the guarantee provision of the railroad law and for an amendment to prevent the interstate commerce commission from regulating intra-state rates.

St. Paul Chief of Detectives Suspended for Non-Feasance in Office

(By United Press)

St. Paul, April 1—Chief of Detectives Wells was suspended by Chief of Police Crepeau today for non-feasance in office. Captain Wells was said to have known that one of the five bandits who held up the City Bank of St. Paul and escaped with \$50,000 was in town for the last month and failed to apprehend him.

Wells has been connected with the local police department for more than twenty years. Three of the bank bandits are said to be wanted in Detroit. Although they have been identified police have found no trace of them since.

Farm Machinery Cut From 10 to 20 Per Cent

(United Press)

St. Paul, April 1—Farm machinery manufacturers are following the general price decline by announcing a cut of ten to twenty per cent on machinery.

The state farm bureau federation received information today from more than a dozen big Minneapolis manufacturers that they had made price reductions.

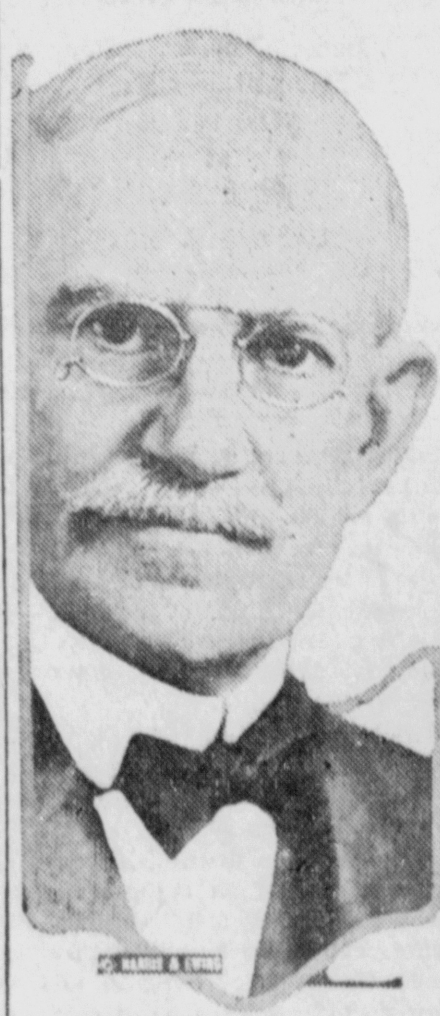

Help Federal Agents Carry Wine From His Own Cellar

St. Paul, April 1—If politeness counts in court, Eugene Tuttle should get off easy. For three hours he helped federal agents carry five hundred gallons of wine from his cellar in buckets. The casks were too large to take out.

Have Women Constables

Velva, N. D., April 1—Velva township claims the honor of having the only woman constable in the state and two were elected there at the last election.

RICHARD J. ERNST

Richard J. Ernst of Covington is the new senator from Kentucky. He is a Republican.

12 IRISH POLICE MISSING; BOMBS WRECK BARRACKS

CIVILIANS IN COUNTY CORK
SMASH FRONT WALL WITH
EXPLOSIVES

Cork, April 1—An attack yesterday upon the police barracks at Ross Carbery, County Cork, resulted in serious casualties to the occupants of the barracks. Fourteen of the police are missing, and it is believed five were killed.

An official report of the affair says the attack was made by civilians at 2 a. m. The front wall of the barracks was blown in by explosives and bombs were thrown into the interior while a heavy rifle fire was maintained on the building.

The police held the barracks until the room in which they were concentrated took fire when a few escaped by an upper window.

New Peace Parley Reported in Erin
Belfast, April 1—Cardinal Logue, primate of Ireland, has been interviewed by Sir William Goulding and three other Irish unionists. Opening of peace negotiations between the Irish republican parliament and the British government was discussed, it was said.

The interview took place at Dundalk, County Louth.

Sir William Goulding is a prominent Irish railway man, a resident of Dublin. He is chairman of the Great Southern & Western railway of Ireland and of the Irish railway clearing house. He was a member of the Irish convention of 1917-18 and is a former high sheriff of Dublin.

NEGROES KILLED ON DEATH FARM NOW NUMBER 13

ACCORDING TO INFORMATION OBTAINED BY OFFICIALS INVESTIGATING THE CASE

(By United Press)

Covington, Ga., April 1—Two more negroes, making a total of 13, were murdered on the Jasper county famous "death farm," according to additional disclosures alleged to have been made today before state officials investigating the case.

Authorities are endeavoring to secure substantiating evidence that may lead to the discovery of two remaining bodies which, according to the alleged statement of a former negro worker on the "death farm," are buried on or near the place.

The name of the informant for the present is withheld.

N. D. INDEPENDENTS VOTED TO INSTITUTE A RECALL ELECTION

TO OUST GOVERNOR FRAZIER, ATTORNEY GENERAL LEMKE AND AGR. COM. HAGEN

THEY WOULD ALSO INITIATE AN AMENDMENT TO AUTHORIZE \$7,500,000 BOND ISSUE

(United Press)

Fargo, N. D., April 1—Nonpartisans today looked over the "hand" played by independents at Devils Lake yesterday and decided to "call."

Both sides are set on everything in the big political battle that will determine perhaps once and for all the fate of the nonpartisan league administration in North Dakota.

Independents at their state convention last night voted for a recall election in which they will attempt to oust Governor Lynn Frazier, Attorney General Wm. Lemke and Commissioner of Agriculture John N. Hagen. The trio form the state industrial commission and govern all the state industries including the Bank of North Dakota.

The independents also voted to put up a proposed constitutional amendment which would authorize an issue of \$7,500,000 in state bonds to refinance the state bank, the home building association and the state mill and elevator program.

They endorsed R. A. Nestos, of Minot, as their choice for governor, and named Solbjorn Johnson, of Grand Forks, their choice for attorney general.

Nomination of a possible successor to John N. Hagen, as commissioner of agriculture, was left to a committee of forty, two of which will conduct the campaign. The convention decided November 8 was a favorable date for a recall election.

FRANCE SEEKS MORAL SUPPORT AMERICAN NATION

THIS IS THE MISSION OF SPECIAL ENVOY VIVIANI—DINES WITH SENATORS

(United Press)

Washington, April 1—France, through her envoy, Rene Viviani, stood before the United States to seek the "sympathy, understanding and moral support" of this country.

French problems, outlined broadly without specific presentation of detailed issues, were laid before four United States senators, when Viviani met them at a dinner given last night by Ambassador Jusserand.

Reports received from the meeting indicated that its character was largely social, that Premier Viviani and the senators spent most part of the evening in appraising each other and that language difficulty prevented intimate discussion of the Franco-American relations.

In the exchange of after dinner notes, Viviani sought to emphatically point out France's view of the post-war situation. So far as is known no mention was made specifically of the league of nations or any new association. Neither did they enter into the subject of the French debt to the United States.

Equipment of State Flour Mill Bill Is Passed by Senate

(United Press)

St. Paul, April 1—The state flour mill authorized by the last legislature may be equipped with necessary machinery if a measure passed by the senate yesterday becomes a law. The senate authorized a financial committee to ask for \$50,000 of the state railroad and warehouse commission's funds for the purpose of equipping the mill.

THE WEATHER

Minnesota—Generally fair tonight and Saturday, warmer in the east portion tonight. Cooperative observers record.

March 30—Maximum 40, minimum 30. Reading in evening 32. Northwest winds. Cloudy. Rain, 0.70 inch.

March 31—Maximum 35, minimum 17. Reading in evening 30. Clear. West wind.

April 1—Minimum during the night, 28. Clear.

Those who bought houses and big garden lots of Nettleton are lucky. No rents to pay, cellar full of food stuffs, hens laying and scratching, chickens hatching. If sick or "laid off", P. B. extends the payments. Gee! 11

Dispatch wants measured well on Thursday evening. There were close to a column and three-quarters of ads, being 6 help wanted, 31 for sale, 6 for rent, 9 miscellaneous wants. Telephone your wants to the Dispatch, Northwest 74, or mail the ad or have it sent to the office. Ads are cash, cent a word each time, no ad taken for less than a quarter.

O. J. Bouma has a relic in his family, being a set of maps over 300 years old. They were printed on parchment paper and are in a very good state of preservation. One set shows North and South America, another the Holy Land, Spain, tugal, etc. The map makers had knowledge of Greenland, Baffins Bay, the Great Lakes, etc. A section of America was designated New Mexico. The West Indies are shown, the peninsula of Florida, etc. Their information of South America was more complete than North America.

The need of land clearing as mentioned in the Chamber of Commerce has been taken up in Pequot. Reference is made to the action of the Beltrami County Land Clearing Association. There are about 3,000 farmers in Beltrami county and present plans

contemplate the clearing in 1921 of an average of five acres for every farmer, making a total of 15,000 acres. The sum of \$5,000 has been subscribed by the business interests of the county for paying the salary and expenses of a land clearing manager who will be hired the year around. Twenty-five farmers' clubs of Beltrami county are solidly behind the project.

Vocal solo—Miss Georgia Drexler.
Report on Milk Inspection by Miss Eula Michael, city nurse.

The subject of getting a suitable place for a community hall or building will also be discussed.

PIANO RECITAL GIVEN

Miss Alice Regina Johnson, Pupil of Mrs. W. A. M. Johnstone, Gains High Praise
(Contributed)

Parlour, loggia and music room of the home of Mr. and Mrs. W. A. M. Johnstone were none too spacious on Wednesday evening when these hospitable doors were again opened to music and friends—some one hundred twenty-five being invited.

This time Alice, Regina Johnson, as the pupil-artist. You say a child cannot be an artist; but artist she is; yet, not a master.

Today the generally accepted definition of the word, "is one who professes and practices an art in which imagination and taste preside over the execution".

Surely imagination and taste presided over Miss Johnson's selections, analyses and execution.

Miss Johnson's presence in the music room is as calm and happy as a child at play, as dignified as any one of the eight masters whose compositions she interpreted, could wish, had they been present.

To Miss Johnson all study must be pleasure, as evinced by the loving care with which she must have searched history, composition and biography for the facts and fancies of her analyses.

How pleasurable to associate the "ringing tones", so effectively expressed, of Chopin's preludes with the solemnity of the out-of-doors to which he was exiled rather than with the reason in his heart!

All thru the rendition, Miss Johnson's excellent technic bespoke careful study under a careful teacher; whose close study of Leschetizky seemed to bring a very direct interpretation of this master's composition 'Caprice, Opus 45.

We interpret thru concepts formed in a material world, thus we are prone to use smoothness, depth, richness of tone to describe music we hear. Thus we have so few phrases to really express the beauties of melody. So few to describe the rendition of this program.

Miss Johnson, in her earnestness, gave a beautiful expression in rhythm that came to her while studying Caminade's 'pastorale.'

Out of a garden of riotous blossoms,
Down a small path leading up to its door,
Hands the old farmhouse, a dream of the past,
For days of young beauty shall know it no more.

's Gables are cobwebbed and dark
Is the ledge
The elms low spreading are knotted and low,
e song of the home-seeking little blue-jay
Tells of torn-down bird houses of long, long ago.

Only the joy breaks the silence about,
The heat of the day is on every flower,
Grasses all rest near the old Mother Earth,
For them blossoms foretell a rain shower.

At listen! from off in the wood-lands afar,
he gentle, sweet babble of streams murmurs low,
e pebbles just tinkle low, oh, ever so clear,
As over their surface the crystal waves go.

As sheep in the meadow behind the old gate
Slowly and rhythmically wander about,
As if they are mocking the drone of the bees
And the bold youthful strength of the young chore boy's shout.

"Tranquillity—peace—with the whole happy world,
A Utopian calm and a kind loving spirit
Are breathed from the very tree tops to the flower
To make one just feel in a heaven—or near it."

A. R. J.
Miss Dorothy Carmichael, Miss Linnemann and Miss Gemmell also little Miss Beise with Miss Elizabeth Johnstone assisted Mr. and Mrs. Johnstone in caring for their guests. Roses and 'rosy' frappe are refreshing, and afforded opportunities to mark the growing appreciation of a larger group of people for music.

League of Women Voters Luncheon

The League of Women Voters luncheon at the Ransford on Tuesday was a decided success from every standpoint. The tables were beautifully decorated with carnations, and the food was as pleasing to the palate as the table was to the eye.

Besides the flowers on the table, there were many bright artificial ones surrounding it on Easter hats that were making their first appearance.

There were fifty-eight women present—forty-eight from Brainerd, and the following from out of town: Mrs. O. Peterson, Mrs. O. Johnson, Mrs. L. G. Acker, from Cuyuna; Mrs. C. E. Hawkins, Mrs. R. G. Harte, Mrs. W. Stearns, from Trommald; Mrs. D. D. McAlpine, Ironton; Mrs. A. R. Holman, Pequot and Mrs. L. D. Brown, Little Falls.

Mrs. L. D. Brown was on her way to Little Falls from Aitkin, where she and Miss Emily Kneubuhl, and Mrs. W. C. Cobb, of Brainerd, were the principal speakers at a one-day session of a school for political instruction.

Miss Emily Kneubuhl, the speaker at the luncheon, said that the political parties were becoming very much worried over the growth of the League of Women Voters. They feared that at best it was organized to promote class legislation, and at worst it was the beginning of a Woman's Party.

Miss Kneubuhl declared that it was a menace to no party that could stand the light of political information. She said that its only object was to promote political education, and foster legislation of particular interest to women, most of which concerned children, or women in industry. She said that the slogan of the League would probably change from political education to education for all the people, for the women coming to realize, more and more, that most of our political evils were the result of ignorance on the part of the masses. While this country boasts equal education opportunities for all, the draft disclosed the fact that a menacing number of our citizens were not taking advantage of these opportunities.

She said that another object of the League was to dignify the ballot and make it a sacred duty to use it for the only purpose for which it was intended, to select the best qualified candidates for the offices to be filled. If the ballot was used to pay personal or class grudges, or to reward personal or class favorites, our foreign citizens would consider that they had a perfect right to get all the money value possible out of something that was being used merely as a medium

of exchange to pay for favors. On the other hand, foreigners always held in high respect any institution that was highly esteemed by the citizens of a country.

Miss Kneubuhl urged women not to seek public office until they were better prepared for it. She said that equal suffrage was not going to improve matters if it merely increased the number of votes to be counted without raising the standard of intelligence in the electorate, or increased the number of incompetents in office. After reviewing the difficulties of getting the League bills through Congress and the legislature, however, she said that women might find that the only way to get consideration from these bodies was to take control of them and reform them from the inside. However, she did not advise this until women had first tried effective organization, and intelligence lobbying, backed by an enlightened and aroused public opinion.

A PAST RECORD OF GOOD RESULTS

No discovery, none excepted, is doing more to bring about a complete revolution in the healing arts than CHIROPRACTIC. This work now covers the continent. It is not an experiment, but a great health institution which daily administers to the relief of hundreds of thousands of sick and afflicted men, women and children.

DISEASE

Disease is defined as anything less than perfect health. The names which make up the catalogue of different diseases have little or no value with reference to recovering health, for all disease are merely effects of physical causes, and when those causes are removed the effects will disappear.

CHIROPRACTIC EFFECTIVE

We have successfully overcome the underlying causes of many cases of stomach trouble, bowel, liver and kidney disorders, rheumatism, neuritis, various headaches, affections of nose, throat, lungs, and other organs both acute and chronic type.

THE ILLOGICAL EXCEPTION

Since the city is the only branch of government in the United States which can become liable for the negligence of its employees, the supreme court of our state has not infrequently termed this situation, "the illogical exception." If an injury should occur as a result of a defect in the roadway on this end of the bridge just north of the dam, the city might become liable to the extent of several thousands of dollars, while the county would suffer no liability if the same defect existed in the portion of the same road on the north side of the bridge. To many there seems no good reason why the city should be liable in cases where the county, township, state or federal government would not be liable.

The Third Amendment submitted to the voters of this city is an attempt to reduce the number of damages cases against the city and in this way to break down as far as possible "the illogical exception." The amendment requires a written notice of the defect in the street or sidewalk at least ten days before the occurrence of the injury caused by such defect. This requirement does not transfer the burden of inspection from the city council to the public at large, but would undoubtedly secure more prompt action by the council in remedying defects than is true under the present charter.

If you wish to reduce the number of damage suits and improve conditions of streets and sidewalks, vote for Amendment No. 3.

OBJECT TO EXTRA TAX

Car owners throughout the state and automobile associations are voicing their objection to the imposition of an additional one per cent tax on automobiles which may be levied as a wheelage tax by any town or village, if a measure before the legislature becomes a law.

The Minneapolis Automobile Trade Association sent this telegram to local dealers:

"The highway law passed by the house is now before the senate, providing for an automobile tax of two per cent on list price. The Child bill passed in the house and is now before the senate.

"It permits any town or village to levy in addition to the state tax a wheelage tax of one per cent, making

a total of three per cent. We will stand for a two per cent state tax, but will not stand for an additional one per cent wheelage tax.

"Senate File No. 920 if passed will prohibit any state, town or village from levying a wheelage tax. Please have every automobile owner in your locality wire your senator today insisting upon the passage of senate file No. 920 and that all other automobile legislation which makes a wheelage tax possible be killed, if we are going to keep the legislature from taxing automobiles out of existence."

The St. Cloud Journal Press summarizes the car taxation as follows:

The present indication is that tax on automobiles will be two per cent of the factory price, which is a trifle more than was expected. This has been accepted by State Automobile association, but a vigorous protest is made against an additional wheelage tax. When the owners pay for the building and maintenance of 7,000 miles of trunk highways, and as property owners pay their full share of all other taxes, that should be sufficient. There is a tendency in the legislature to over-do this taxing business on automobiles and it is decidedly unfair.

THE CONGRESSIONAL PROGRAM

An outline of what is expected to be the program when the new congress convenes on April 11 is given as follows by persons in touch with Washington affairs.

1. Enactment of a farmers' emergency tariff, endorsed by the president.
2. Anti-dumping legislation with a provision for an American valuation on imports to the United States.
3. Passage of a budget system for

the federal government to balance expenditures with income.

4. Revision of the taxation program of the government so that enterprise may not be discouraged and taxpayers may know as nearly as possible what taxes they will have to pay.

5. Reorganization of government departments to eliminate duplication of work and of expense.

6. Enactment of a permanent republican protective tariff law.

A good many persons will regret that there is no mention of legislation to insure relief for disabled service men in this program, and that immigration receives no mention. As the outline is only tentative, however, it may be that both these vital subjects will receive timely attention. For the rest of the program, while there will be the inevitable difference of opinion on the tariff question, there can be little on the advisability of a budget system, improvement of tax systems and reorganization of governmental departments.

If congress succeeds in completing the program with a decent degree of sanity and promptitude, things will look more hopeful than they have for a long time.

M. & I. TO CONFER ON WAGE SCALES

Notice Served Various Classes of its Employees by the Railway Company Officials

SIMILAR TO OTHER RAILROADS

The Matter to be Handled in Accordance With the Provisions of Transportation Act

The officials of the Minnesota & International railway company have served notice on various classes of its employees that they desire to confer with them on the question of reducing wages in line with decreasing costs of living and wages paid for similar or analogous work in outside industries.

This action is similar to that taken by practically all the railroads in the state, and the railroads in handling the matter are following the provisions of the transportation act in dealing with their men.

NOVEL CASE IN COURT

State Food Inspector A. J. Anderson Has Local Firm in Court on First Charge of Kind Here

State Food Inspector A. J. Anderson of St. Paul had a local firm cited in municipal court on the first charge of its kind in the history of local jurisprudence, and before Judge Walter F. Wieland in municipal court the Peoples Supply Co. pleaded guilty to a charge of unlawfully causing to be published misleading statements in its advertising.

The inspector stated in court that his investigation showed the firm were not selling all their articles at actual cost to themselves and some were being sold. On recommendation of the inspector a fine of \$25 was imposed.

There was no trial of the case, as the company entered a plea of guilty.

The case brings plainly to advertisers the fact that the state exercises supervision over advertising of food-stuffs, etc.

What is Dis-ease?

Dis-ease is lack or excess of function in any part of the body. All function is controlled by mental impulses from the brain, therefore the cause of dis-ease must be an interference with the line of communication between the brain and the dis-eased part. It necessarily follows that the only permanent way to do away with the dis-ease is to adjust its cause and thus restore free communication. Chiropractors do this by adjusting the displacement that causes the obstruction. Ninety-five per cent of the obstructions are at the Spine.

Germany Dumping Goods In Belgium

Brussels, April 1.—In a formal note addressed to the Belgian government, the Belgian Federation of Contractors charges Germany with perfecting a gigantic system of dumping. This is declared to be so formidable that no industry outside of Germany can fight against it unless determined and rapid action is taken at once.

It is further charged that the whole financial power of the German state has been placed at the disposal of German industry, enabling German firms to grant the most liberal kind of terms in the way of long time credits. This is protection the Belgian contractors declare.

This incident arose between the Belgian government and the Belgian Federation of Contractors, when the government recently accepted a German proposal to supply rolling stock for the Belgian State Railways.

Incorporated in the protest is a denunciation of governmental policy in ordering German goods at an apparent saving of 18,000,000 francs when, it is declared, Belgium will in the long run stand to lose 21,000,000 francs by reason of unemployment and so forth.

The protest declares it is a false policy to consider solely and wholly the mere question of lowness of price and quickness of delivery and makes a plea for governmental assistance for strictly national industries, now suffering from scarcity of foreign orders, thereby making local business all the more valuable.

By awarding governmental orders to a foreign country, the protest points out, Belgium is deprived of a valuable source of revenue at a time when it is badly needed.

NORTHWEST NEWS

College Championship

St. Paul, April 1.—Track and field stars of the northwest were here today for the northwestern championship meet at the auditorium under the auspices of the A. A. U. and St. Paul Athletic club.

Nearly every college in the state was represented in the entry list. Events for athletes in high schools also are scheduled and many of the larger high schools of the state sent entrants.

All athletes if registered with the A. A. U. are eligible to compete.

Regulation gold, silver and bronze medals are to be awarded winners and runners up.

Under the high school class the following events were scheduled:

Fifty yard dash, 50 yard low hurdles, 440 yards and half mile runs and the mile relay. Shot put, high jump and pole vault are the field events.

"THE LITTLE GREY MOUSE"
WILLIAM FOX PRODUCTION

"The Little Grey Mouse"

"The Little Grey Mouse," a William Fox production and the first starring vehicle of Louise Lovely, comes to the Lyceum theatre today only. This story is from the pen of Barbara Le Marr Deely.

The story in the main deals with a beautiful and talented woman, who because of her retiring and conservative life, is given the title of

"the little grey mouse" by a worldly woman who has ensnared her husband—a worthless chap who accepts the credit for her literary genius as a matter of course and finally divorces her on false but circumstantial evidence. Having had her freedom thrust upon her, she goes West, where she gains both fame and fortune with her pen, and in the end gains also the love of a worthy man.

was shot and killed by Survey Erickson of Hibbing, Minn., alleged whiskey runner, is suing the city for \$15,000. Erickson died following wounds received when Fahler returned the fire.

No Worse in N. D. Than Montana
Grand Forks, N. D., April 1.—North Dakota has no more closed banks in proportion to total number chartered than Montana, according to J. J. Carley, Valley City, chairman of the executive council of the North Dakota Bankers' association.

Declaring that "political conditions" which have contributed to present financial cause are being "rapidly and effectively liquidated" he declared that "all our bank troubles or merchandising troubles must not be ascribed to political conditions."

AMUSEMENTS

At the New Park Theatre

Perhaps Constance Talmadge cannot lay claim to the title of "mermaid of the screen" just yet, but Annette Kellerman had better look to her laurels if Constance is called upon to make another picture like her new first National release, "Good References," which will be shown at the New Park theatre, beginning today.

For Miss Talmadge was compelled to do more swimming during the production of this picture than she had ever done in a like period before. One of the principal scenes calls for a pretty large order of swimming. While taking a dip with the pseudo valet of a jealous admirer Constance, as the heroine, is deserted by the yachtman party to which she belongs, leaving her with the handsome valet in Long Island Sound to swim back to New York or splash to shore and take their chances on being arrested for parading about in bathing suits. In either case it was a long swim and while Constance has always been active and rather athletic she did not feel equal to the task before the camera until she had considerable practice at swimming.

Inflict Further Penalties on Germany

Paris, April 1.—Allied ambassadors have been instructed to prepare plans

Woman Can't Find Words to Express Herself

"After six years of suffering from stomach trouble I am feeling fine. All the bloating and soreness is gone from my stomach and bowels. I can eat all I like now. I can't think of any words suitable enough to praise Mayr's Wonderful Remedy. I am sure it has saved my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and druggists everywhere.

10-Man Revolt Is Suppressed in Mexico

(By United Press)
Brownsville, Texas, April 1.—The ten man revolt in Mexico started ten days ago when Augustin Cordemas revolted and took to banditry with ten followers, ended today. Cordemas was court martialed, three of his rebels killed and the remainder of the band scattered to the hills when Modesto Garcia, heading a company of rurales, surrounded the revolutionists at the Puerta ranch south of Matamoros, according to a report to Consul Vanequez here.

Phone Rates Are Increased In Cities

St. Paul, April 1.—Increased telephone rates were effective today as a result of the temporary order of Judge Booth. Local rates increased about 17 per cent under this new schedule. The average increase in St. Paul is 20 per cent and Minneapolis 11 per cent.

ICE CREAM

Early Seeding

EARLY SOWING of early maturing varieties of wheat, such as the Marquis, usually results in a good crop being harvested while fields of wheat which are ten days or two weeks later in development may be heavily damaged by rust when harvest time comes around. Sometimes where the soil is so heavy and rich in organic matter, early seeding is difficult, but such fields should be drained and worked as early as possible.

Twelve hundred good farmers in the states of North and South Dakota and Minnesota, when asked by us, are agreed upon this point. There is not one dissenting voice, that Marquis wheat has a better chance if it is put in the ground early.

It would be well therefore if you are going to plant more than one variety of wheat, to sow the Marquis first; then if we have a rust-free year, the Marquis will be its own best vindication in quality, quantity and price.

What the Soil Needs

THERE ARE many other things besides rust which will affect the quality and quantity of the wheat crop. We must supply the plant food elements which have been removed by continued cropping. One farmer writes:

"I believe that our wheat is easily a prey to disease because of something lacking in the soil. For instance I sold to our mill this fall \$4,200.00 worth of Marquis wheat that graded No. 1 Northern and weighed 61 pounds to bushel, and I am sure it was good stuff, as

I received \$2.65 a bushel for it with only one-half pound per bushel dockage. In one field where line rock sticks out in places, the finest Marquis grew this year and it was a great big plump berry. In spite of the rust I got 19 bu. per acre. I am going to try liming and a little phosphate this year and will give you the results.

"I believe something is lacking in our soil to put our spring wheat over the 'bad time,' as it is filling in and it fails by the wayside. I have lots of nitrogen and straw."

To County Agents

Wheat growing is a problem for you to solve. We urge you to conduct local seed plots and get the assistance of as many of your good farmers as possible in solving the problem. We hope you will demonstrate the value of sweet clover and other legumes, acid phosphate and limestone.

Please study carefully the procedure of your best farmers. It is worth millions to your county to conquer this problem.
